

MY LOGISTICS GURUKUL

BRIDGING ACADEMIA AND INDUSTRY THROUGH PRACTICAL LEARNING

INDUSTRY EXPOSURE | EXPERT MENTORSHIP | CAREER READINESS | REAL-WORLD IMPACT

Why Logistics?

Logistics is one of the world's fastest growing industries, connecting businesses, markets, and consumers across the globe. With expanding international trade, e-commerce growth, and increasing reliance on efficient supply chains, the sector offers diverse career opportunities, strong growth prospects, and exposure to global business operations.

- Fast-growing industry
- Diverse career opportunities
- Global business exposure
- Strong career growth
- Future-ready profession

Why Skilled Professionals are needed in Logistics?

As supply chains become more complex and technology driven, the demand for skilled logistics professionals continues to grow. Organizations increasingly seek job ready talent with practical knowledge and operational expertise to meet industry needs. The gap between industry requirements and available talent has made trained, job-ready professionals more valuable than ever.

- High industry demand
- Need for job-ready talent
- Practical skills requirement
- E-commerce and trade growth
- Technology-driven roles

Supporting India's Growth Vision

Logistics is a key driver of India's economic development. With national initiatives focused on connectivity, efficiency, and skill development, the industry requires a strong pipeline of trained professionals to support the country's evolving supply chain ecosystem.

Driving National Progress through:

- *Skill India*
- *Make in India*
- *PM Gati Shakti*
- *National Logistics Policy*

Emerging Needs of the Industry

- Skill based logistics education
- Employability focused programs
- Industry aligned curriculum
- Workforce development initiatives

ABOUT US

ABOUT
MYLOGISTICS GURUKUL

MyLogistics Gurukul is a specialized logistics training academy committed to building future ready professionals. Through practical training, industry interaction, and career focused programs, we enable learners to develop the skills that employers value most.

MyLogistics Gurukul, established in 2019, bridges the gap between traditional education and the evolving needs of the logistics industry by providing practical, job-ready, and industry-oriented training for freshers and professionals.

Industry Expert Led Trainings

DG Familiarization Workshop

E Commerce &
Express Cargo Logistics

Duration : 10 Weeks

The E Commerce & Express Cargo Logistics course provides a comprehensive understanding of the fast growing logistics industry that powers modern online commerce. It covers the complete shipment lifecycle from order pickup and fulfillment to transportation, final delivery, and returns management.

Participants will gain practical knowledge of express cargo operations, documentation, compliance requirements, packaging standards, customer service, and emerging technologies.

- Express Cargo Ecosystem
- E Commerce Fulfillment Operations
- First Mile
- Middle Mile
- Last Mile
- Reverse Logistics
- Documentation and Compliance
- Packaging and Safety Standards
- Technology in Express Cargo
- Customer Service

Advanced Logistics &
Freight Forwarding Management

Duration : 24 Weeks

This comprehensive program is designed to provide a practical understanding of logistics operations across transportation, warehousing, freight forwarding, and distribution. Participants deep delve into the Indian logistics ecosystem, regulatory framework, and key industry verticals e-commerce, cold chain, project cargo. The curriculum covers ocean, air, rail, road, and inland waterway logistics processes and documentation. Course also covers procurement, pricing, rate negotiation along with emerging technologies and automation.

- Logistics & Supply Chain Fundamentals
- Freight Management & Transportation
- Commercial & Procurement
- Management Industry Verticals
- E Commerce and Express Cargo
- Cold Chain & Pharmaceuticals
- Port & Terminal Operations
- Warehousing & Distribution
- Digital Logistics & Technology

Students will undergo internship in logistics companies and work on specialized projects.

22. Personality Grooming

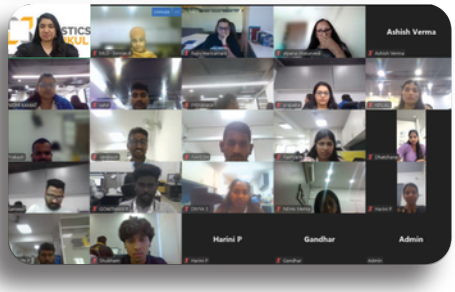

and many more...

Classroom Learning

Build a strong foundation through instructor led sessions that combine industry knowledge with practical insights. Interactive learning ensures concepts are understood and applied effectively.

- Expert-led training sessions
- Interactive discussions and activities
- Industry-relevant case studies
- Concept-driven learning approach

Online Learning

Learn from anywhere through engaging virtual sessions designed for flexibility and convenience. Real time interaction keeps participants connected and involved throughout the learning journey.

- Live virtual classes
- Flexible learning environment
- Digital learning resources
- Interactive participation opportunities

Self-Paced Learning Modules

Access learning content anytime and progress at a pace that suits individual learning needs. This approach encourages continuous learning and knowledge reinforcement.

- Learn anytime, anywhere
- Flexible learning schedules
- Easy content accessibility
- Revision and reinforcement support

On-the-Job Training

Gain valuable workplace exposure by observing and participating in real operational activities. Experience first hand how industry processes function in a professional environment.

- Real workplace exposure
- Learning through observation
- Practical process understanding
- Industry readiness development

Hands-On Practical Training

Apply theoretical concepts through practical exercises, simulations, and operational activities. Learning by doing helps build confidence and job ready skills.

- Practical exercises and assignments
- Process-based simulations
- Skill-building activities
- Application-focused learning

Industry Exposure & Experiential Learning

Connect classroom learning with real world industry practices through site visits and professional interactions. Gain insights into operational environments and career opportunities.

- Industry visits and exposure
- Professional networking opportunities
- Real-world business insights
- Understanding industry expectations

VOICES OF SUCCESS

Ashish Tanwar

My Overall experience in my logistics gurukul was amazing. Our mentors were really good and helpful. The knowledge provided was theoretical and practical as well.

Sonali Sharma

MLG provides me hands on experience in freight forwarding. Trainer made the things alive through his practical examples

Bhavya Pandey

Thank you for organizing a fantastic 10-week long course on Logistics and Freight Forwarding Basics. I feel so supported and confident

Manish Yadav

I have done a course in e-commerce and logistics management with Mylogistics gurukul which was a super fantastic experience for me.

Pragya Taneja

The course is designed in a perfect for a fresher.

Gauresh Gidwani

Thank You, MLG team for giving us an opportunity to learn and know Various Career Avenues in the field of Logistics & e-commerce

Manish Kumar Paswan

Highly recommended for anyone who wants real, job-ready logistics expertise.

Harman Singh

I would also like to extend my gratitude to Team MLG for instilling the values of responsibility and commitment in all your trainees like myself and for providing us a platform to showcase our strengths. Thank you.

Rohit Sharma

During this lockdown period, I got a chance to enroll myself in "MLG 001 Logistics & Freight Forwarding Basics" online course offered by MY Logistics Gurukul . it was a great experience

Kumar Dushyant

"They deliver what they promise and in today's era it's a pretty rare quality to have"

Meenakshi Mehta

I would like to express my feelings, that I have really enjoyed and learned many things about the Logistics Industry.

Pallavi Arya

I would like to thank MYLOGISTICS GURUKUL for providing me the opportunity to prove myself and come up as a better human with the passage of time.

Shagun Pathania

The kind of guidance and insights MLG gave are really precious for understanding the Industry in and out.

Ajay Negi

The moment I stepped into the classroom, I felt I was in the right place.
